

AFMR Southern Regional Meeting Abstracts Subject Index

A

- Academic health center Department of Pediatrics, as local HS program grantee, experiences, 115
- ACEI therapy, for peri-procedural MI patients undergoing PCI, 1
- Achalasia, long term complications and dysphagia, post fundoplication of, 107
- Achondroplasia with hypotonia, and apparent life threatening events (ALTE), in infant, case report, 21
- Acute interstitial nephritis, heparin-induced, case report, 41
- Acute leukemia, correlation of sonographic findings with histopathology of suspected testicular lesions in, 375
- Acute lung injury, transfusion related, case report, 172
- Acute lymphoblastic leukemia, role of BCR-ABL fusion gene, case report, 377
- Acute myocardial infarction (AMI), incidence rate post Hurricane Katrina, 60
- Acute staphylococcal osteomyelitis in children, management of, 393
- Adipone, as childhood risk factor predictors for CV events, 91
- Adjuvant chemotherapy with tyrosine kinase inhibitors, retrospective review, 128
- Advance directives, associations between patients' social and health characteristics, 292
- African-American (AA) patients, heritability and genetic linkage of left ventricular mass, systolic and diastolic function in hypertensive, 261
- African-American (AA) patients with decompensated biventricular failure hypovitaminosis D in, 77
- lymphocytopenia in, and role of splanchnic congestion, 255
- reversible lymphocytopenia incidence rate in, study, 73
- secondary hyperparathyroidism (SHPT) in, 77
- African-American (AA) patients with heart failure, vitamin D deficiency in, 81
- African American cohorts, relation of peripheral arterial disease (PAD) and C-reactive protein in, 53
- African Americans, distribution and determinants of doppler-derived diastolic flow indices among, 342
- AIDS patient, case of diagnosis error as odontophagia, 235
- Aldosterone/salt treatment (ALDOST), role of thymic involution and loss of thymulin on hypertension and cardiac fibrosis associated with, 78
- Aldosteronism, muscle wasting in rats with, role of insulin growth factor (IGF)-1 and Zn supplements, 69
- Alendronate, effectiveness of, in osteoporosis, 350
- All terrain vehicle (ATV) injuries, presenting to children's hospital, characteristics of, 337
- All-trans retinoic acid, role in Npr1 (coding for GC-A/NPRA) gene transcription and expression, 65
- Ambulatory Care Sensitive Conditions (ACSC) factors associated with hospitalization for, 113
- hospitalizations for, 116
- Amiodarone-induced loculated pleural effusion, case report, 204
- Anaphylaxis, due to gadolinium, case report, 47
- Angiotensin (Ang) II-induced ureteric bud (UB) branching morphogenesis, associated genomes of, 323
- Angiotensin II (Ang II) mediated skeletal muscle atrophy, role of Atrogin-1 and MuRF-1 expression, 80
- Anorexia nervosa (AN), relation with extreme exercise and cardiac events, 61
- Anterior mediastinal masses, retrospective analysis on initial presentations, 280
- Anti-tumor necrosis factor alpha (antiTNF) therapy, in rheumatoid arthritis (RA), predictors of, 242
- APL-A12, mechanisms in arthritis, 241
- Arthritis, mechanisms of APL-A12 in, 241
- Aspergilloma, endobronchial extension of, case report, 206
- Asthma, humidity as an exacerbating factor, study, 49
- Asymptomatic neonates, management of, born to mothers who are Group B Streptococcus (GBS), 309
- Atherogenic lipoprotein abnormalities, associated with mild elevations in urine albumin excretion and impairment in kidney function in type 2 diabetic subjects, 404
- Atherosclerosis in systemic lupus erythematosus, biomarkers, 249
- ATP binding cassette transporter A3 (ABCA3) mutation, as a consideration in term respiratory distress syndrome (ADS), case report, 157
- Atrial natriuretic peptide (ANP), role in inhibition of distal nephron fractional sodium reabsorption, 321
- Atrogin-1 expression, mechanisms of, 80
- Atrophic rhinosinusitis (AtR), diagnostic criteria for, 244
- Atypical Teratoid/Rhabdoid Tumor (AT/RT), case report, 168
- Autism Spectrum Disorders (ASD), psychological functioning of parents with children of, 370
- Autoimmunity in NOD mice
- gene expression abnormalities in spleen leukocyte transcriptomes and proteomes, 349
- role of proteins, 344
- A 46 Xy T(8;13)(P12;Q12) karyotype, association with polycythemia, leukocytosis and T-lymphoblastic lymphoma, 376
- Bartonella henselae infection, with histiocytosis X, case report, 164
- Beta-lactams, adverse effects of, literature review, 227
- Bilateral chylothoraces, in a newborn, case report, 173
- Biomarkers
- of cerebral injury in a neonatal pig model of cardiopulmonary bypass and circulatory arrest, 403
- of prediabetes, in leukocyte membrane (LM) proteome of non-obese diabetic (NOD) mice, development of, 344
- Birth injuries, in postterm infants born to obese women, 333
- Blood culture contamination rate (CR), as a tool in pediatric ED, 392
- Blount's disease, and vitamin D deficiency, 233
- Bogalusa Heart Study
- childhood risk factor predictors of hsCRP and adiponectin in adulthood, 91
- correlates of common carotid artery lumen diameter in black and white younger adults, 260
- estimation of association of childhood BP variability with adulthood hypertension, 58
- examination of association of birth weight with heart rate, systolic blood pressure (SBP) and double (pressure-heart rate) product, 57
- homocysteine, study of association with arterial wall stiffness, 70
- intima-media thickness (IMT) of femoral and carotid artery segments, impact of multiple cardiovascular (CV) risk factors, 67
- leukocyte telomere length (LTL), impact of high-density lipoprotein cholesterol (HDL-C) on, 59
- metabolic syndrome, with risk of microalbuminuria, in black and white young adults, 347
- plasma homocysteine, associated with glomerular filtration rate in black and white young adults, 211
- Bradykinin B1 receptors during nephrogenesis, immunolocalization and expression of, 324
- Brain tissue oxygenation, with cerebral NIRS and systemic SVO2 during VA ECMO, comparison of, 221
- Breast feeding
- and urinary tract infection (UTI), 33
- vs. bottlefeeding, mothers' perceptions, 307
- Broken heart syndrome, chronic stress in, case report, 87
- Bronchiolitis, management in pediatric emergency department, 201
- Bronchoalveolar lavage fluid, viral studies on, 198
- Bronchopulmonary dysplasia, suck-swallow-breath rhythms during infant feeding, study, 187
- Bubble continuous positive airway pressure (CPAP), treatment outcomes in premature infants, 301

B

Burn patients, serum vitamin D levels in, 281
1,4-Butanediol (1,4-BD) inhibited coma, case report, 24

C

Cachexia, mechanism of, in congestive heart failure (CHF), 252
preventive therapy for, 72
Calcific aortic stenosis, post operative porcine aortic valve replacement, case report, 86
Calcium-channel blockers vs. ACE inhibitors for pediatric hypertension, comparative study, 231
Campylobacter, comparative analysis of exposure in Georgia, 391
Cardiac device related endocarditis and persistent septic atrial thrombus, case of, 27
Cardiac remodeling
role of interleukin-1 (IL-1), 216
role of myeloid differentiation factor 88 (MyD88), 217
Cardiofaciocutaneous (CFC) syndrome, cardiac defects in, case report, 84
Cardiologist, assessment of functions of, 364
Cardiomyocytes expressions, of metal response element transcription factor-1, metallothionein-1 and zinc transporters, in rats with aldosteronism, 253
Cardiomyopathy, in diabetics-hispanic population, 259
Caries, in children under 5 years, prevalence of, study, 334
Catastrophic Antiphospholipid Syndrome, case report, 385
CDC HIV screening guidelines
adherence to, assessment, 430
overview, 426
Cerebral NIRS, correlation with brain tissue oxygenation, during VA ECMO, 221
Cerebral palsy patients, challenges in diagnosis, case report, 160
Cervical cancer screening, patterns of, among Internal Medicine residents, 436
Childhood BP variability and adulthood hypertension, relation of, 58
CH-induced pulmonary hypertension, MMP-2, MMP-9, and fibronectin expression in, 317
Chlamydia pneumoniae infective endocarditis (IE), case report, 140
Cholestasis, drug-induced, case report, 104
Chromosome 22 deletions, with neuronal migrational disorder, case report, 161
Chromosome 17Q23.2 deletions, in new born with severe hypoxemia, case report, 186
Chronic alcohol abuse, and risk of developing acute lung injury (ALI), 312
Chronic candida, in HIV patients, case report, 136
Chronic dietary Mg-deficiency, impact of, on in situ cardiac function in rats, 64
Chronic lung disease (CLD), monitoring of oxygen saturation in, 303
Clone 1135 related protein, as potential treatment for proteinuria, study, 326
CME-style 4th year elective, evaluation of, 423
Coated-platelets, levels in human neonates, study, 191
Cognitive mapping, use in identifying dimensions that contribute to successful rounds, 294

Colitis, chronic infectious, inflammatory bowel disease (IBD) differentiation from, 112
Colon cancer, case report, 124
Colonoscopy prep instructions, significance of clear liquid part, 427
Colorectal cancer (CRC) screening, rural patient attitude, 336
Coma, in 20-month old boy, from an ingestion of a toy containing 1,4-BD, case of, 24
Communication with patients via internet, analysis, 418
Community-acquired pneumonia (CAP), and utility of blood cultures in pediatric practice, 237
Congenital anomalies, multiple, in an infant of an obese diabetic mother, case report, 193
Congenital nephrogenic diabetes insipidus (DI), with severe hypernatremia leading to rhabdomyolysis, hyperkalemia and acute kidney injury, case example, 6
Congestive heart failure (CHF)
mechanism of cachexia, 252
predictors in managed-care CKD patients, 409
Continuous renal replacement therapy on renal recovery, effect of timing of initiation of, 408
Coronary angioplasty, relationship between kidney function and silent myocardial ischemia, study, 406
Coronary artery calcification, patients with, hypovitaminosis D and parathyroid hormone levels in, 82
Cortical collecting duct cells, mechanism of protease effects on sodium transport in, 320
C-reactive protein
and carotid intima-media thickness (CIMT), relation of, in African American cohorts, 343
and peripheral arterial disease (PAD), relation of, in African American cohorts, 53
C-reactive protein transgenic mice (CRPtg) neointima formation 4, in acute vascular injury, 225
Cryptococcal meningitis
HAART outcomes, 287
in HIV patients, case report, 136
Cuff leak tests, systematic review and meta-analysis, 200
Cyclosporine induced diabetes mellitus, in a patient with aplastic anemia, case report, 126
Cyclosporine therapy, for hypereosinophilic syndrome, case report, 380
Cystic fibrosis (CF)
colonization with rhizobium radiobacter, study, 390
linezolid-resistant *Staphylococcus aureus* (SA) in, study, 138
Cystic fibrosis-related diabetes, screening, review, and treatment, 36
Cystic fibrosis transmembrane conductance regulator (CFTR), in esophageal submucosal glands, identification of, 268

D

Daptomycin (DAP) therapy
potential effects of, for treatment of murine soft tissue infections caused by group A streptococci (*Streptococcus pyogenes*), 283

for soft tissue infections caused by CA-MRSA strains, analysis, 387
Death receptor 5 (DR5) mediated apoptosis, in mouse cell lines, study, 214, 240
Decisionally impaired patients, as research subjects, ethical and legal implications, 156
Delusions, of parasitosis, in children, case report, 159
Dental services, preventive, significance, 367
Depression and tension type headache, relation, in patients of rural El Salvador, 419
Dermoid cyst of ovary, malignant transformation of a, case report, 123
Desensitization therapy, for sensitized patients, study, 228
Dexamethasone (Dex), treatment bronchopulmonary dysplasia, 402
Diabetes
cardiomyopathy in hispanic population with, 259
skin autofluorescence, role in pre-diabetes and its cardiovascular dysfunction, 348
Diabetes mellitus
clinical outcomes and medical costs resulting from education and management service in specialized community pharmacy, 118
cyclosporine-induced, in a patient with aplastic anemia, case report, 126
presenting in hyperglycemic crisis, clinical and molecular characteristics of, 346
Diabetes Mellitus 2 (DM2), and insulin resistance, 92
Diabetic gastroparesis (GP), relationship between baseline measures and survival rates, 264
Diabetic ketoacidosis, determinants of mental status in adults with, 345
Diabetic nephropathy
phosphorylated AMP-activated protein kinase during early, 412
variability of individual urine proteins associated with blood pressure and medications differences in, 209
Diabetic retinopathy (DR)
highly oxidized-glycated LDL (HOG-LDL) induced apoptosis as a risk factor for development of, 102
Ox-LDL immunocomplexes in, study, 353
Dialysis outcomes, among varying dialysis units, comparative study, 208
Diskitis, abdominal pain as clinical presentation, 25
Domestic violence(DV) curriculum, development of, 238
Dominant negative transforming growth factor (TGF)- β type II receptor (DnTGF β RII) expression and impact on pressure overloaded heart, 2
Do-not-resuscitate (DNR) orders, nursing perspective, 289
Down syndrome (DS), pediatric residents' need for training in delivering a diagnosis of, 291
Drug eluting stents (DES) vs. bare metal stents (BMS), comparative study, 55
Drug-induced lupus nephritis, after infliximab treatment for ulcerative colitis, 9

Dyslipidemias, in HIV-infected children and adolescents receiving highly active antiretroviral therapy, study, 286

E

- E. coli*, role in prevention of staurosporine-induced apoptosis in small intestines of two week-old mice, 396
- E. coli* necrotizing fasciitis, in a transplant patient, case report, 37
- ECMO-related systemic inflammatory response, role of abnormal gut barrier function and bacterial translocation, 223
- Eikenella corrodens* vertebral osteomyelitis, causing subacute back pain in an adolescent, case report, 239
- Electrogastrogram (EGG), origins and significance of directly recorded signals in response to physiologic maneuvers in patients with drug-refractory gastroparesis (GP), 360
- Emergency department, pediatric strategies for patient care in, 371
- use of blood culture contamination rate (CR), 392
- Emergency department (ED) overcrowding (EDOC), time sensitive emergency conditions in, 373
- Emergency departments, excess utilization of, by underserved populations, study, 368
- Emphysematous cystitis and pyelonephritis, in an infant, case report, 174
- Endoscopic mucosal EGG results, Cyc vs. NoCyc patients, study, 270
- Enterocolitis cluster vs. lymphocytosis-associated clusters of NECs, study of, 182
- Enteroviral infections in a newborn, case report, 184
- Epiphyseal osteomyelitis in a toddler, case report, 170
- Epithelial-mesenchymal transformation (EMT), relation with gastroesophageal reflux disease (GERD), study, 215, 319
- Eplerenone, role in preventing muscle wasting in rats with aldosteronism, 251
- Erythropoietin stimulating agent (ESA), efficacy of, in hemoglobin homeostasis, 366
- Esophageal carcinoma presenting with polymyositis, case report, 105
- Estrogen expression, in balloon injured rat carotid arteries and in rat aortic smooth muscle cells (RASMCs), 332
- Exercise stress testing, evaluation of responses to T waves, 19
- Extremely low birth weight (ELBW) infants history of cholestasis in, 399
- study of incidence of heavy metals in blood transfusions, 179

F

- Familial systemic erythematosis, deficiency of early complement components in, 246
- Family-centered care, for children with special health care needs (CSHCN), study, 232
- Fatty acid ethyl esters, as a potential biomarker, of in-utero ethanol exposure in preterm guinea pig placentas, 300

- Fecothorax, meconium ileus, case review, 171
- Fenofibrate induced hepatic toxicity, case report, 359
- Fetal neoplasms, clinical significance of, 195
- Fetal ultrasounds with anatomic correlation, study, 71
- Focal segmental glomerulosclerosis (FSGS), and delayed renal graft function, 213
- Food Dependant Exercise Induced Anaphylaxis (FDEIA), diagnosis using wheat flour, 245
- Fructose-1,6-Diphosphate (FDP), role in protection of ex-vivo stored hearts, 66
- Fulminate neonatal cardiorespiratory collapse, caused by coxsackievirus B1 myocarditis, case report, 175

G

- Gadolinim contrast medium, in vitro cytotoxicity analysis of, 411
- Gadolinium-induced anaphylaxis, case report, 47
- Gait speed measurements, in healthy workers, study, 420
- Galectin-1, as treatment for vascular smooth muscle cells, 329
- Gastric Electrical Stimulation (GES) role in post-surgical disordered gastric emptying, 363
- vs. sacral electrical stimulation (SES), comparative analysis, 361
- Gastric emptying test (GET), study of correlation with diabetics presenting with symptoms of dyspepsia/gastroparesis, 111
- Gastroesophageal reflux disease (GERD), relation with epithelial-mesenchymal transformation (EMT), study, 215, 319
- Gastrointestinal bleeding in Henoch-Schönlein purpura (HSP), rituxim therapy for, 20
- Gastrointestinal histoplasmosis, with bowel perforation, in patients with HIV/AIDS, 108
- Gastroparesis (GP) assessment of survival rates, using GES devices, 269
- implanted with gastric electrical stimulation (GES), analysis of complications experienced by patients, 271
- indicators of mortality, 103
- Gastroschisis cases in KY, incidence and geographic distribution of, analysis, 398
- Gelatinous transformation of bone marrow (GMT), in anorexia nervosa, management of, 277
- Glucose tolerance, effect of, on left ventricular (LV) structure and both systolic and diastolic function in African Americans (AA), 89
- Glutathione peroxidase (GPX) expression, in endothelial cells, role of insulin-like growth factor-1 (IGF-1), 63
- Good's syndrome in association with PML, case report, 8
- Gorlin-Gotz syndrome, case report, 167
- Granular cell tumor of esophagus presenting with dysphagia andodynophagia, endoscopic resection of, case report, 109

- Graves' disease, with complications of psychosis, thyroid storm, and thyrotoxic periodic paralysis, case report, 96
- Gut mucosal abnormalities, role of non-pathogenic bacteria in germ-free animals to prevent, 356

H

- HAART comparative analysis of 3-drug vs. 4-drug regimens, 285
- impact on cryptococcal meningitis, 287
- Haemolytic anemia, post levaquin therapy for urinary tract infection, impact of reticulocytopenia workup, case report, 384
- Health habits, of primary care trained physicians, 438
- Health information and ethnicity, study of, 424
- Heart block, acquired complete secondary to traumatic septal tear, case study, 16
- Hematochezia in previously asymptomatic 23-year-old male, case report, 383
- Hematogenous osteomyelitis, case report, 145
- Henoch-Schönlein purpura (HSP) with gastrointestinal bleeding, rituxim therapy for, 20
- with IgG c-ANCA, case report, 46
- Heparin-induced acute interstitial nephritis, case report, 41
- Heparin induced thrombocytopenia (HIT), case report, 124
- Hepatic adenoma of liver, in a child with high grade glioma, case report, 125
- Hepatic sarcomas, primary, extending into right atrium causing obstruction, case report, 88
- Hepatic sequestration crisis, in patient with sickle cell anemia, case report, 134
- Hepatic sickle crisis, case of, 5
- Hepatocellular carcinoma (HCC), regression of, case report and literature review, 278
- Hereditary angioedema (HAE), association with snoring, case report, 165
- High-density lipoprotein cholesterol (HDL-C), impact on leukocyte telomere length (LTL), 59
- High-flow nasal cannula (HFNC) therapy, assessment of effectiveness, 203
- Highly oxidized-glycated LDL (HOG-LDL) induced apoptosis, as a risk factor for development of diabetic retinopathy (DR), 102
- High sensitive c-reactive protein (hsCRP), childhood risk factor predictors for Cv events, 91
- Hirsutism &/or virilization, caused by ovarian neoplasm, case report, 100
- Histoplasmosis, pulmonary, in hematopoietic stem cell transplant patient, case report, 144
- HIV Associated Nephropathy (HIVAN), case report, 210
- HIV infected hemodialysis patients, bacteremia rates in, 410
- HIV knowledge, among patients, 440
- HIV patients with acute kidney injury, mortality and resource utilization among, 288
- case of a positive 49-year-old woman, treatment experiences, 39

chronic candida and cryptococcal meningitis in, case report, 136
 dyslipidemias, in children and adolescents receiving highly active antiretroviral therapy, study, 286
 emergency department utilization and hospitalization among, 413
 factors surrounding physician-patient discussions, 441
 gastrointestinal histoplasmosis, with bowel perforation in, 108
 with progressive multifocal leukoencephalopathy (PML), case report, 8
 HIV screening guidelines, physician knowledge of, 437
 HIV screening-predictors, evaluation of characteristics of patients that are being tested compared to who are not, 429
 HIV surveillance, in Ecuador, 395
 Hodgkin's lymphoma, presenting as hematuria, case report, 127
 Holter monitors, utility with pediatric population, 254
 Homocysteine, study of association with arterial wall stiffness, 70
 Hospital-based medical home program for special needs children, development of a, 304
 Hospital readmissions, review analysis, 444
 Hospital-wide MM&I conference, development of, 295
 Human immunodeficiency virus screening, frequency and predictors of agreement with guideline, 416
 Humidity, as an exacerbating factor asthma, study, 49
 Hyperbaric oxygen therapy, for digital ischemia resulting from accidental EpiPen auto-injection, 7
 Hypercalcemia
 idiopathic, of infancy, case report, 22
 with parathyroid malignancy, case report, 97
 Hypereosinophilic syndrome, cyclosporine therapy for, case report, 380
 Hyperglycemia, in critically ill patients with multiorgan failure, study, 75
 Hyperparathyroidism, primary, in pregnancy, presenting as acute pancreatitis in 3rd trimester, case report, 94
 Hypertension, systemic venous, due to decompensated biventricular failure, consequences and their reversible nature, case report, 29
 Hypoalbuminemia, in patients having hepatic and splanchnic congestion of diverse etiologic origins, study, 257
 Hypovitaminosis D and parathyroid hormone levels, in patients with coronary artery calcification, 82

I

Idiopathic Pulmonary Fibrosis (IPF), role of reflux, 215, 319
 Immunization
 administration in pediatric practices, assessment, 119
 effect on children, assessment, 236
 Immunological profile, of preterm infants, study, 189

Immunomodulatory effects of stress hormones, mechanisms of, on human peripheral blood mononuclear cells (PBMC), 243
 Immunosuppressant therapies, clinical trials in membranous lupus nephritis, review of, 247
 Infections, in neonatal intensive care unit, assessment of, 310
 Inflammatory bowel disease (IBD), differentiation with chronic infectious colitis, 112
 Inflammatory myofibroblastic tumor, of heart, case report, 43
 Infliximab treatment, lupus nephritis after, 9
 Injury prevention information, method of communication, study, 148
 Inpatient attitudes
 analysis, 417
 satisfaction on teaching teams, 432
 Insulin analogs and human insulins, safety and efficacy of, comparative study, 101
 Insulin-like growth factor I (IGF-1)
 role in atherosclerotic foam cell formation in vivo and in vitro, 258
 role in 12/15-lipoxygenase (LOX) regulation, 76
 role in preventing muscle wasting in rats with aldosteronism, 69, 74
 role in regulation of glutathione peroxidase (GPX) expression and activity in endothelial cells, 63
 skeletal muscle-specific expression, role in preventing ANG-induced muscle wasting and/or oxidative stress, 72
 Insulin resistance (IR), effect of, on left ventricular (LV) structure and both systolic and diastolic function in African Americans (AA), 89
 Insulin resistance (IR), effect on diabetes mellitus 2 (DM2), 92
 Insulin signaling, in premature baboon model, study, 222
 Interdepartmental teaching, role of, significance, 155
 Interferon- γ (IFN- γ), role in host defense against infections, 386
 Interleukin-1 (IL-1), protective role in cardiac remodeling after acute myocardial infarction (AMI), 4, 216
 Interleukin-23 in host defense against *pneumocystis carinii* infection, role of, 314
 Interleukin-8 receptors in gut mucosal development, role of, 355
 Internal medicine in-training examinations, content analysis, 414
 Intima-media thickness (IMT) of femoral and carotid artery segments, impact of multiple cardiovascular (CV) risk factors, 67
 Intraocular pressure monitoring, in children, study, 202
 Intravenous access (IV), in children, study, 114
 IPCA program, 148

K

Kawasaki disease (KD), clinical presentations of, 137
 Kelley-Seegmiller Syndrome, case report, 51

Kidney Foundation Outcomes Quality Initiative Guidelines (K/DOQI) guidelines, for screening of chronic kidney disease stage, 351
 Kidney function and silent myocardial ischemia, relationship, in patients undergoing coronary angioplasty, study, 406

L

Laboratory tests, discrepancies among results of EIA, culture, and PCR assays, 282
 Lactic acidosis, profound, in a cocaine intoxicated restrained patient, treatment of, case report, 10
 Left main coronary dissection, in 40 year old female, case report, 30
 Left ventricular (LV) diastolic chamber size, estimation of, in patients with heart failure and normal ejection fraction (HFNEF), 62
 Leucocytoclastic vasculitis due to glargine insulin, case report, 38
 Leukocyte/lymphocyte counts and Apnea Hypopnea Index (AHI), relationship in patients diagnosed with OSA, 199
 Leukocyte telomere length (LTL), impact of high-density lipoprotein cholesterol (HDL-C), 59
 12/15-Lipoxygenase (LOX) regulation, role of insulin growth factor (IGF)-1, 76
 Livedoid vasculitis (LV), paraneoplastic, as manifestation of a squamous cell carcinoma of pharynx, case report, 50
 Liver injury, clopidogrel-induced mixed hepatocellular and cholestatic, case report, 40
 Loin pain-hematuria syndrome (LPHS), case report, 15
 Lymphocytopenia, in African-Americans with decompensated heart failure, role of splanchnic congestion, 255
 Lymphocytopenia, reversible, incidence rate in African-American (AA) patients with decompensated biventricular failure, study, 73

M

Macrophage activation syndrome, in a child with ehrlichia chaffeensis infection, case report, 381
 Malignant peripheral nerve sheath tumors (MPNST), targeted treatment of, 276
 Mammography, rural patient attitude towards, 335
 Medical education, screen-based simulation prototype for teaching hypovolemic shock, 298
 Medical student attitudes, on class transition to clinic, 415
 Medical student learning, impact of observation and imitation of clinical role models, 290
 Medical students and impact on patient care, 4420
 Medication monitoring errors in a practice based research network, assessment of, 365
 Membranous lupus nephritis, clinical trials of immunosuppressant therapies, review of, 247

Mentoring program, in pediatric residency, implementation, 153

Mesenchymal stem cell (MSC) function, effect of alcohol, 313

Metabolic syndrome (MS)
among young South Asians, study, 98
incidence rate of MI and stroke in
Hispanic population with, 54
with risk of microalbuminuria, in black
and white young adults, study, 347

Methadone, neonatal ICU patients,
retrospective analysis, 181

Methicillin-resistant *Staphylococcus aureus*
(MRSA), model for control of
colonization and infection in intensive
care unit, 389

Milk alkali syndrome (MAS), case report, 207

Morning report, in pediatric centers, needs
assessment, 154

Mother's own milk (MOM), screening of, 357

Multiple myeloma associated hypercalcemia,
case report, 207

Multiple uncontrolled comorbid medical
conditions (MUCC), role in blood
pressure (BP) medication intensification,
in uncontrolled hypertensive patients,
439

Multivalent GAS vaccine, for treatment of
soft tissue infections caused by group A
streptococci (*Streptococcus pyogenes*),
284

MuRF-1 expression, mechanisms of, 80

Muscle wasting in rats with aldosteronism
role of eplerenone, 251
role of insulin growth factor (IGF)-1
and Zn supplements, 69, 74

Myasthenia Gravis (MG), occurrence with
rheumatoid arthritis (RA), case report, 52

Mycosis fungoides, evolving into an
aggressive cutaneous t-cell lymphoma,
case report, 378

Myeloid differentiation factor 88 (MyD88)
as a novel therapeutic target after acute
myocardial infarction, 330
role in cardiac remodeling, 217

Myocardial ischemia, role in activity of protein
phosphatase 2a (PP2a), 68

N

Necrotizing enterocolitis (NEC), as a neonatal
screening tool to evaluate splanchnic
perfusion, 219

Neonatal pain associated with chest tubes,
study of, 178

Neonatal Resuscitation Program (NRP)
(Spanish version), effectiveness of, 188

Neonatal sepsis, effect of immune modifying
treatment on mortality in, 400

Neu-laxova syndrome, case reports and
literature review, 177

Neuroblastomas
University of Mississippi Medical
Center's experiences, 34
in vaginal wall of 2 year old child, case
report, 122

Neutropenia, in very low birth (VLBW) infants
born to mothers with preeclampsia, 306

Nevoid Basal Cell Carcinoma syndrome, case
report, 167

Newborn physical examination, teaching
techniques and areas for improvement, 293

Nicotine and PPAR β/δ , in NSCLC cell survival
signals, analysis of relationship, 273

Noninsulinoma pancreatogenous
hyperinsulinemic hypoglycemia syndrome,
in an 18 year old post gastric bypass
surgery, case report, 99

Non-pathogenic bacteria, role of, in germ-free
animals to prevent gut mucosal
abnormalities, 356

Nursing home patients, falls and co-morbid
conditions among, analysis, 421

O

Obstructive kidney disease, inflammatory
caspases in renal fibrosis of, 328

Obstructive sleep apnea (OSA), relationship
between leukocyte/lymphocyte counts and
Apnea Hypopnea Index (AHI), 199

Online educational activities, assessment of
participation in, 431

Orbital metastasis from prostate cancer, case
report, 129

Ovarian cancer, in a man, case report, 135

Ox-LDL immunocomplexes, in diabetic
retinopathy, study, 353

P

Pain measurement, videotape review vs. self
report, comparative study, 229

Palivizumab, assessment of treatment
compliance, 340

Pancoast tumor, clinical manifestations, case
report, 121

Pancytopenia, in AIDS patient, case report, 142

Panhypopituitarism, caused by a hypothalamic
mass, case report, 95

Parathyroidectomy, effect of, on systolic and
diastolic blood pressure in hypertensive
subjects with hyperparathyroidism, 218,
352

Patient satisfaction, strategies for, 428

Pediatric craniocerebral gunshot wounds, case
report on outcomes, 169

Pediatric emergency room, assessment of
frequent use of, 120

Pediatric junior clerkship students,
documentation practices of, 150

Pediatric MVC injuries in Alabama,
surveillance review, 338

Pediatric obesity, effectiveness of directive
counseling, 35

Pediatric palliative care staff knowledge,
assessment, 369

Pediatric patients, and chronic home
medications, study, 151

Pediatric residency programs, curriculum
development for, 149

Pelvic plasmacytoma, in a patient post
autologous transplant, for multiple
myeloma and plasmacytoma of jaw and
spine, case report, 132

Percutaneous coronary intervention (PCI),
prevalence of low medication adherence,
341

Peripheral arterial disease (PAD) and
C-reactive protein, relation of, in African
American cohorts, 53

Peripheral t-cell lymphoma (PTCL), in a
pediatric patient with myelodysplastic
syndrome (MDS), case report, 131

Peri-procedural MI patients undergoing PCI,
ACEI treatment for, 1

Peri-procedural myocardial infarction,
predictors of, 1

Physician attitude, to HIV screening guidelines,
437

Pituitary adenylate cyclase-activating
polypeptide (PACAP-38), renoprotective
effects of, on CDDP induced kidney injury
in mice, 322

Pituitary metastasis, isolated, from small cell
lung cancer, case report, 12

Plasma homocysteine, associated with
glomerular filtration rate in black and white
young adults, 211

Pneumocystis carinii (PC) infection
impact of absence of Bim, 315
thymopoietic response to, 316

Pompe disease
autopsy studies, 185
ventricular fibrillation in, case report, 85

Positive Predictive Value (PPV) of screening,
estimations of alerts in, 372

Posterior reversible encephalopathy syndrome
(PRES), with lupus nephritis, case
report, 13

PPAR β/δ and nicotine, in NSCLC cell
survival signals, analysis of relationship,
273

Preeclampsia, and imbalance of angiogenic
factors, rat model analysis, 325

Prenatal care utilization, study of, in rural
Ecuador, 117

Prenatal oxycodone exposure, effects of, on
cardiovascular response to acute stress
and neurobehavioral outcome in
offspring, 401

Prepregnancy BMI and weight gain on postterm
delivery, effect of, 305

Preterm delivery, community vs. academic
medical center caring, 308

Primary amebic meningoencephalitis (PAM),
case report, 139

Primordial germ cells (PGCs), migration of,
genetics of, 275

Probiotic *E. coli*, role in reducing
staurosporine-induced apoptosis, 266

Progressive altered mental status, case
report, 163

Progressive multifocal leukoencephalopathy
(PML), in patients with HIV, case report, 8

Prohibitin (PHB) therapy, in prevention of
colonic inflammation in mice, 263

Propofol, use of, for conscious sedation during
gastrointestinal procedures, study, 358

Prostate cancer
metastatic to stomach, case report, 110
with orbital metastasis, case report, 129

Protein-losing enteropathy, in patients with
decompensated, biventricular failure having
hypoalbuminemia, 257

Protein phosphatase 2a (PP2a), impact of
myocardial ischemia, 68

Protenuria
Clone 1135 related protein therapy for, 326
high salt exacerbates, in chronic
angiotensin-II infused rats, 327

Pseudomonas aeruginosa skull base
osteomyelitis, without otitis externa, case
report, 141

Pseudothrombocytopenia, with associated
platelet dysfunction, study, 382

Pseudotumor cerebri, with performance-enhancing steroids linked to hypercoagulable states, case report, 162
 Pulmonary hypoplasia, lethal, due to maternal ace inhibitor use, case report, 23
 Pulmonary microvascular endothelial cells (PMVEC) proliferation, soluble CD40 ligand effects on, 196
 Pulmonary papillomatosis with progression to multifocal squamous cell cancer of lung, case report, 379
 Pulmonary vein synovial sarcoma, with mitral valve obstruction and left lung invasion, case report, 83
 Pulse oximetry, use as a neonatal screening tool to detect heart diseases, 183

Q

Quality assurance program, assessment of attendance at chronic kidney disease (CKD) clinic, 374
 Quetiapine-induced cholestasis, case report, 104

R

Radiation-arrest defective zebrafish mutant R612, characterization of, 274
 Reactive nitrogen and oxygen intermediates, role of, in lupus nephritis (LN), 248
 Reactive oxygen species (ROS), role in epithelial-mesenchymal transition (EMT) of alveolar epithelial cells, 224
 Readmissions to hospitals, review analysis, 444
 Renal disease, in patients with implantable cardioverter defibrillators, study, 56
 Renal failure, due to leukemic infiltration, in chronic lymphocytic leukemia, case report, 212
 Renal replacement therapy, in patients with acute kidney injury, need assessment, 407
 Resident attitudes
 towards child advocacy, 299
 towards clinical training in diagnosis of Down syndrome (DS), 291
 towards continuing clinical training, study, 152
 towards Hispanic culture and language, 297
 Resident physician central venous line placement training, 435
 Resistant hypophosphatemia with Chiari malformation, case report, 11
 Retinoic acid syndrome, case report, 14
 Retinopathy of prematurity (ROP), monitoring of oxygen saturation in, 303
 Rheumatology, impact of instructor directed learning for career in, 147
 Rituximab therapy, effect of, on NK and T regulatory cells in a patient with acquired Hemophilia A, 279
 Rituxim therapy, for Henoch-Schönlein purpura (HSP) with gastrointestinal bleeding, 20
 Rosiglitazone
 role in attenuation of HIF 1 α
 up-regulation in hypoxia exposed

human pulmonary artery smooth muscle cells, 205
 role in attenuation of pulmonary hypertension, 197
 Rural hospitals, structure and functions of ethics committees in, 296

S

Sacral electrical stimulation (SES) vs. gastric electrical stimulation (GES), comparative analysis, 361
 Sarcoid rhinosinusitis (SRS), clinical features of, 250
 Scientific presentation skills, preparation for, 433
 Scimitar syndrome masquerading as late-onset PPHN, in a newborn, case report, 166
 Seizure, first-time, in an infant, case report, 26
 Serum NT-proBNP levels, as a predictor of, hsPDA in very low birth weight (VLBW) infants, 220
 Serum vitamin D levels, in burn patients, 281
 Sickle cell crises, with acute hepatic failure and sequestration, study, 5
 Sickle cell patient with hepatic sequestration crisis, case report, 134
 Sinus thrombosis, lateral, in acute otomastoiditis, case study, 176
 Skeletal muscle atrophy, role of oxidative stress, 252
 Skeletal muscle wasting in rats, with aldosteronism, Zn alone or Zn plus IGF-1 therapy, 74
 Skin autofluorescence, role in pre-diabetes and its cardiovascular dysfunction, 348
 SLC26A6, in esophageal submucosal glands, identification of, 268
 Slipped capital femoral epiphysis (SCFE) and vitamin D deficiency, 233
 Small cell lung cancer, case report, 133
 Spironolactone (S), role in reducing oxidative stress in rats with aldosteronism, 331
 Splenic sequestration, in an adult with HbSS, case report, 130
 Spontaneous dissection of coronary arteries, case report, 31
 Sports injuries, in an urban pediatric emergency department, study, 339
 Sprinter's dysautonomia, case report, 18
Staphylococcus aureus (SA), linezolid-resistant, in cystic fibrosis, study, 138
 Streptococcus agalactiae endocarditis, in an intravenous drug abuser, case report, 143
 Subacute back pain, in an adolescent, caused by *Eikenella corrodens* vertebral osteomyelitis, case report, 239
 Subdural empyema in an adolescent, case report, 158
 Suck-swallow-breath rhythms during infant feeding
 in bronchopulmonary dysplasia, study, 187
 spectral analysis, 194
 Systemic lupus erythematosus (SLE)
 assessment of quality of life with Short Form-36 (SF36), 44
 with atherosclerosis, biomarkers for, 249

Systemic SVO2, correlation with brain tissue oxygenation, during VA ECMO, 221
 Systolic dysfunction in post-liver transplant patient, case report, 28

T

Tako-tsubo cardiomyopathy
 case report, 32
 chronic stress in, 87
 Tako-tsubo syndrome, role of emotional stress, 79
 T cell lymphoma, atypical gastrointestinal presentation of, case report, 106
 Teen driver motor vehicle crashes (MVCs), study, 90
 Tension type headache and depression, relation, in patients of rural El Salvador, 419
 Thrombocytopenia, in very low birth (VLBW) infants born to mothers with preeclampsia, 306
 T-lymphocytes, impact of antibody-mediated depletion of, 318
 Toll-like receptors 2 and 4, role in postnatal intestinal development, 397
 Toxocara canis infection, complications associated with, case report, 48
 TPN-induced hyperglycemia, impacts on clinical outcome, 354
 Transfusion related acute lung injury, case report, 172
 Traumatic ventricular tear, case study, 16
 Triplex-forming oligonucleotides (TFOs), effect on collagen gene in rat model of liver fibrosis, 262
 Trust, role in therapeutic process, 230
 Tubulo-interstitial injury, as risk for macroalbuminuric hypertensive nephropathy, analysis, 405
 T waves, evaluation of responses while exercise stress testing, 19
 Twiddler syndrome, study of, 42
 Type 2 diabetes
 atherogenic lipoprotein abnormalities, associated with mild elevations in urine albumin excretion and impairment in kidney function in, 404
 cerebral edema in, case report, 93
 measurement of impaired coronary vascular reactivity using 3T MRI in asymptomatic women with, 256

U

Ulcerative colitis, and drug-induced lupus nephritis after infliximab treatment, 9
 Urinary nitrite, role of, as a marker of inflammation and response to treatment in Crohns disease, 267
 Urinary tract infection (UTI), breast feeding vs. vitamin D supplementation, study, 33

V

VE-Cadherin (VE-Cad), role in cardiac development, 3
 VEGF-Trap, effect of, in anaplastic thyroid carcinoma cells, 272
 Vein of Galen malformation, as persistent pulmonary hypertension, case report, 192
 Venous access in children, assessment, 234

Ventilator tidal volume (TV) distribution, high frequency (HF), in neonatal test model, study, 302

Ventricular fibrillation, in Pompe's disease, case report, 85

Ventricular shunt infections, etiology of, 394

Very low birth weight (VLBW) infants
mortality rates, 180
use of serum NT-proBNP levels to predict presence of hsPDA in, 220

Video images
for advance care planning, participant perception, 425
of advanced dementia, analysis of patient attitude, 443

Vitamin D deficiency
prevalence in African-American (AA) patients with heart failure, 81
prevalence of, in an urban general internal medicine academic practice, 434

role in higher rates of fractures, slipped capital femoral epiphysis (SCFE) and Blount's disease, 233

Vitamin D therapy
for refractory pulmonary tuberculosis, case report, 146
and urinary tract infection (UTI), 33

W

Wegener's Granulomatosis, case study, 17

Wrapping intervention vs. mattress, for prevention of hypothermia, study, 190

X

X-linked agammaglobulinemia (XLA), with isolated igh deficiency, case report, 45

X-linked hypophosphatemia (XLH), with Chiari malformation, case report, 11

Z

Zebrafish knockdown model, for screening vascular functions, 3

Zinc supplementation
role in preventing muscle wasting in rats with aldosteronism, 69, 74
role in treatment of *Klebsiella pneumoniae* in setting of chronic alcohol ingestion in rats, 311
treatment for Zn dyshomeostasis in rats with chronic aldosteronism, 226

Zoledronic acid, effectiveness of, in osteoporosis, 350

Zollinger-Ellison syndrome (ZES), prospective evaluation of clinical characteristics, response to therapy and outcome, 265
